Login System with Sharedpreferences

Log In

- If we have user name and password then write the valid user_name and password and press “Sign-In”
- Otherwise we need to press “Sign-up”

A mobile application login screen with a teal background. At the top, the status bar shows various icons and the time 2:01 AM. The screen features the title "Log In" and a snowflake icon. Below these are three input fields: the first for "Email" with a person icon, the second for a password with a lock icon and masked characters "*****", and a "Sign In" button with a snowflake icon. At the bottom, there are two links: "Sign UP" and "Forgot Password", both underlined.

Sign Up

- Simply give our data and press “Done” Button to save data.

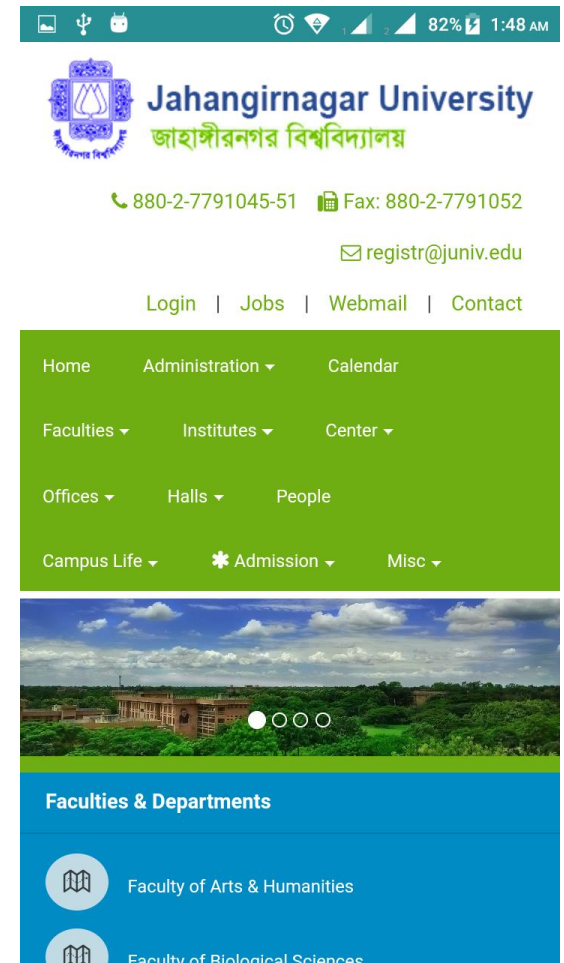

A mobile application interface for signing up. The screen has a teal background. At the top, there is a status bar with various icons and the time 1:48 AM. Below the status bar, the text "Sign Up" is displayed in white. Underneath the text is a white snowflake icon. There are two input fields: the first one contains a person icon and the text "Email / User Name"; the second one contains a lock icon and five asterisks. At the bottom, there is a white button with the text "DONE" in black.

Forgot Password

- If press “Forgot Password” from “Log In” page then you can see your save data name & password.

- After successful login you can get a web view page (to see this need to confirm your INTERNET connection).

- Thanks
